Success in creating AI would be the **biggest** event in human history. Unfortunately, it might also be the **last**, unless we **learn** how to avoid the risks.

Martin Luther King, Jr.

A silhouette of a person stands on the edge of a dark, rocky cliff, looking out towards a vast, starry night sky. The sky is a deep blue, filled with numerous white stars of varying sizes. A prominent, bright star with a four-pointed diffraction pattern is visible in the upper left quadrant. The overall mood is contemplative and awe-inspiring.

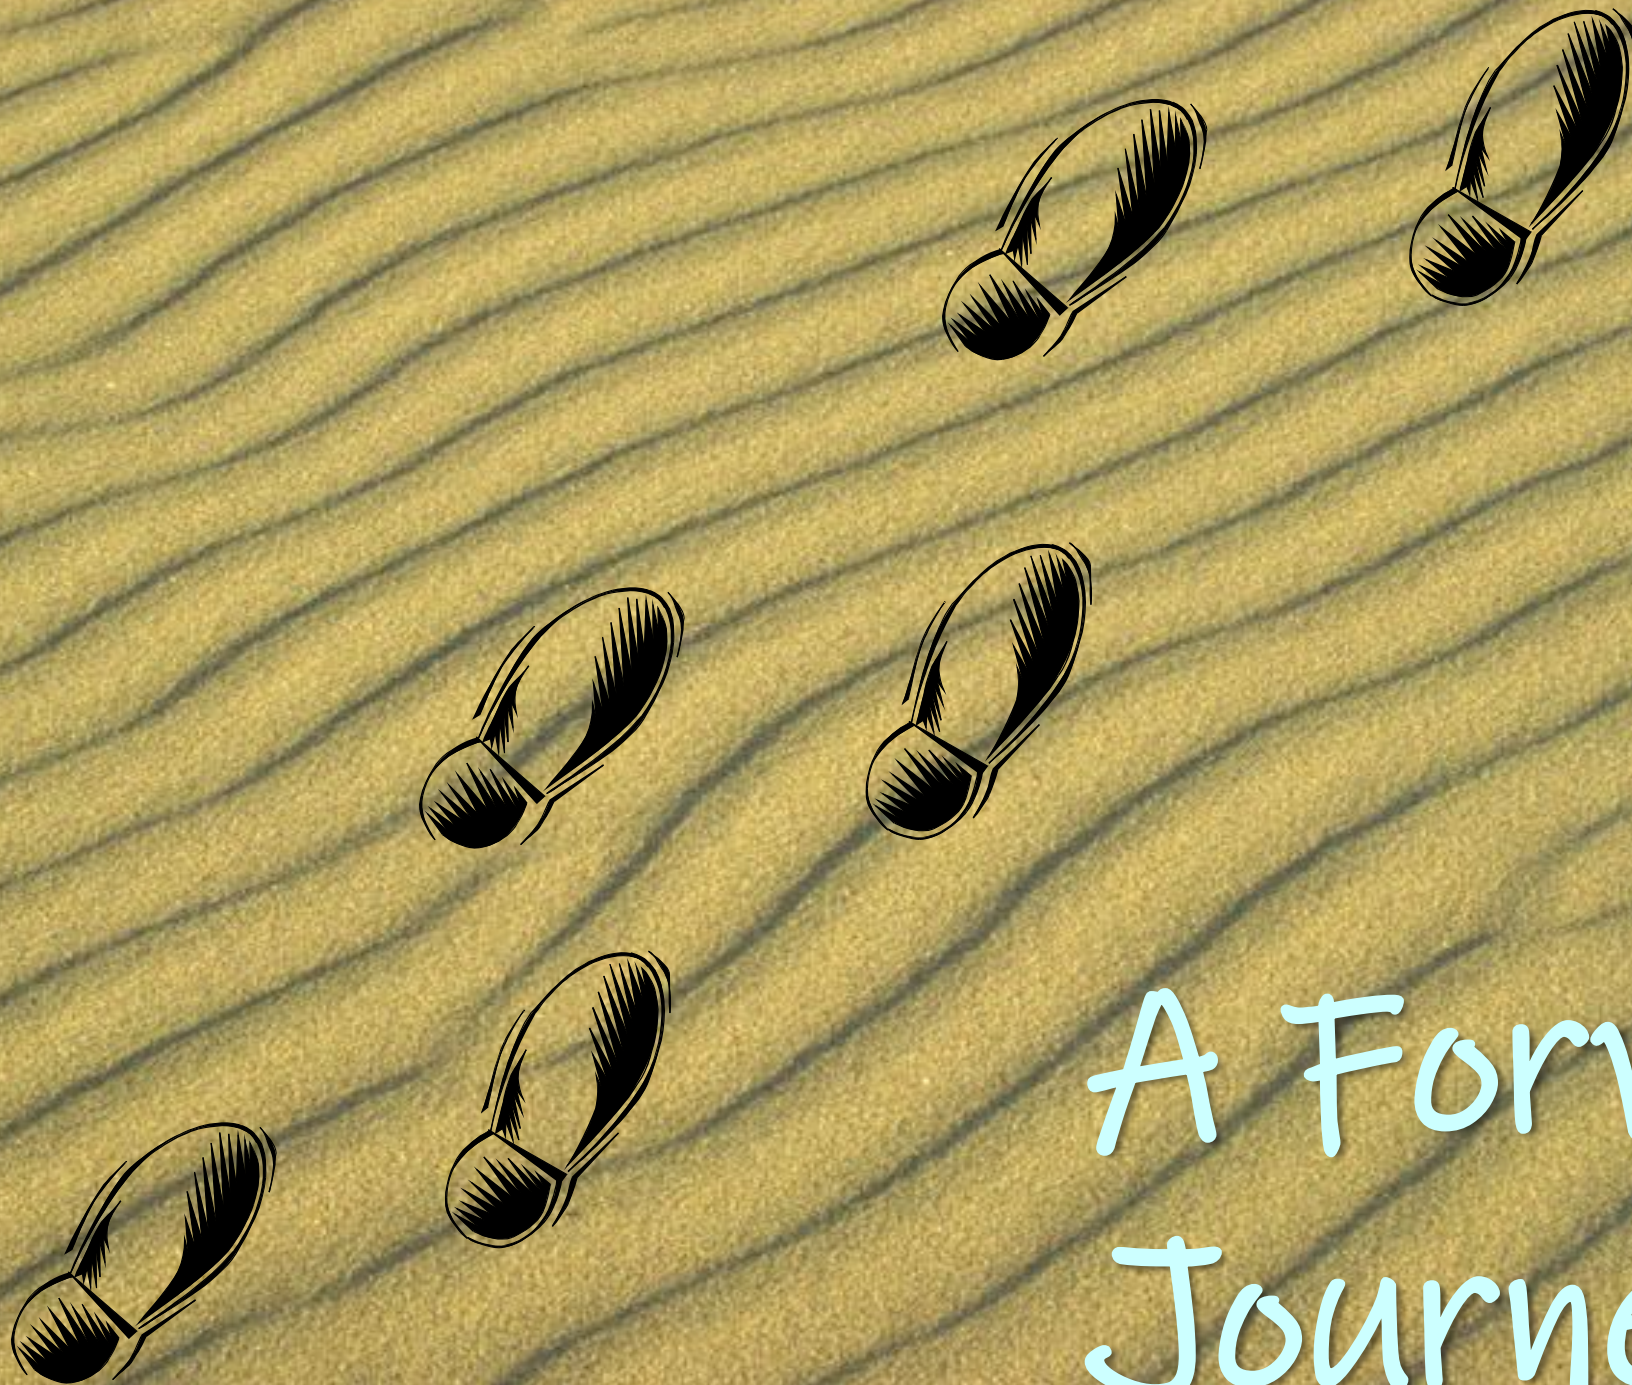

Celebrating
UNIQUENESS

A black and white photograph of Sir Edmund Hillary, a man with a weathered face and dark hair, looking upwards with a determined expression. He is wearing a dark jacket. In the background, the snow-capped peak of Mount Everest rises majestically against a clear sky. The image has a slightly desaturated, vintage feel.

**It is not the
mountains we
conquer but
ourselves.**
